

Gustavo Adolfo Camargo Pineda

+57 3226810212 | camargogustavo@gmail.com | Cali, Colombia

Summary

I am Gustavo Camargo, Software Engineer from Colombia with expertise in **backend development, cloud computing, and AI-driven solutions**. Experienced in **Go, Java, JS, Python, AWS, AZURE, GraphQL, Flutter, and SupaBase**, leading technical teams, and building scalable systems. Passionate about **entrepreneurship**, currently developing **TasteBud**, an AI-powered in situ dish recommendation platform. Recognized for **problem-solving, leadership, and adaptability**

Experience

BookHub (Muthu GmbH) | Cali (Remote) | Frankfurt

AWS Developer (Contractor) | 01/2025 - Present

- Leading **AWS serverless development** for a **Shopify-integrated print-on-demand book platform**.
- **Automating book production workflows** with **Lambda, Step Functions, CloudFormation, and API Gateway**.
- Implementing **CI/CD pipelines**, monitoring system performance, and optimizing infrastructure.

BAST Automation | Cali, Colombia

Project Manager & Solutions Architect (Contractor) | 11/2024 - 12/2025

- Leading the development and deployment of **BIA (BAST Intelligent Assistant)**, a chatbot for **IPS Medical Center appointment automation**
- Collaborating with **stakeholders** to align product requirements with business goal
- Driving **innovation** and **generating new ideas** for product enhancements, like an AI-driven solution for real estate to find the best commercial properties using geospatial data.

Priver Group | Cali (Remote) | Miami

Software Engineer (Freelance) | 09/2024 - 10/2025

- **HouseApp**: Developed a **Flutter-based real estate discovery platform** using **SupaBase as a backend**.
- **ChatApp Services**: Engineered a Golang daemon for a messaging platform, handling real-time sync and priority-queue task orchestration.

Intellis | Cali (Remote) | Montreal

Junior Software Engineer | 10/2023 - 09/2024

- **Led 3 backend development cells**, building **Go + GraphQL microservices** for processing **point cloud data**.
- Optimized **file loading and downloading processes**, improving system efficiency.
- Integrated **Three.js** for **web-based 3D visualization of LAS, LAZ, and E57 files**.

Education

Universidad San Buenaventura | Cali, Colombia

Software Engineering | 06/2026

- **GPA: 3.8/4.0**, among the top students in the Faculty.
- Selected for **HPC Camp, Datathons, Hackathons, and XR Campus at Universidad de los Andes**.
- Member of **PADIA Investigation Group**, focused on data engineering and Machine Learning, AI and Deep Learning development.

Skills

Backend Development, Cloud Computing, AWS, Azure, GitHub, Agile Software Development, Project Management
